MOYER DENIES ORCHARD'S STORY ON THE STAND

SAID HE FIRST KNEW OF STEUBENBERG'S DEATH FROM THE NEWSPAPERS.

WAS EXAMINED AT LENGTH

And Told His Life Story and the History of the Industrial Strife in Colorado.

Boise, Idaho, July 11.—Under a furious fire of cross examination, President Chas. H. Moyer of the Western Federation of Miners, is sticking steadfastly to the story he told on the witness stand for the defense in the Haywood case yesterday. Moyer's testimony was designed to substantiate the defense's claim that violence was countenanced neither by the Miners' Federation collectively nor by any of its officers, individually, and to support the contention that a monster conspiracy existed among the mine owners to break up the federation. He gave Orchard the lie direct. That he carried arms at various times, he admitted, but only to protect himself against the beatings he said were inflicted on many members of the miners' organization supposedly by agents of the mine owners. Moyer made a good witness for the defense on direct examination, and is proving equally good on cross examination. Senator Borah's attempts to trap him into admissions of Orchard's charges he avoids cleverly, some times even turning the tables on his questioner by his adroit answers. The cross examination is expected to occupy most of today. Haywood will follow Moyer on the stand.

Boise, Ida., July 11.—President Charles H. Moyer of the Western Federation of Miners, who was called to the stand to testify in William Haywood's behalf, made a self-possessed witness, and at the end of his examination the defense expressed satisfaction over both his testimony and the probable impression he made on the jury.

Only one important clash marked the relations of counsel. The defense wanted to prove all the circumstances under which Moyer and his associates were secretly arrested in Denver, denied communication with counsel, and taken to Idaho by special train, but the state opposed it. The court ruled that the circumstances of the transaction were not properly a part of the defense, but Messrs. Darrow and Richardson continued their plea that it was most important as showing a conspiracy on the part of the mine owners and Pinkertons.

Moyer, besides making stout denial of all crimes that were attributed to him and the other federation leaders by Harry Orchard, offered an explanation of the unsolicited appearance of the Western Federation of Miners as the defender of Harry Orchard immediately after his arrest at Caldwell, for the murder of Frank Steunberger. Moyer swore that it was Jack Simpkins who engaged Attorney Fred Miller at Spokane to go to Caldwell to represent Orchard, then known as Thomas Hogan, and that it was at the request of Simpkins that the witness and Haywood subsequently advanced \$1,500 from the funds of the federation to meet the expense of defending Orchard. At various stages of the recital, the defense offered in evidence a number of documents, including a heretofore undisclosed cipher telegram, which Simpkins sent to federation headquarters and the union at Silver City, Ida., covering the moves to protect the federation which was charged with the crime within a few days after it occurred. Moyer got his first knowledge of the crime from the Denver newspapers and that on the evening of January 4, five days after the crime, a telegram in the federation's cipher—a code in which certain numerals represented the alphabet and published in the ritual of the organization, was used to transmit the password to local unions—came to Haywood from Spokane. It was long and the translation was difficult and uncertain, but he and Haywood figured the next day that it was signed by Simpkins and read: "Cannot get a lawyer to defend Hogan. Answer."

Witness testified that he was suspicious about the message, the newspaper having already charged the crime up to the federation, and that he had decided to consult John Murphy, general counsel for the federation before he took any steps in case. Moyer said he left for Chicago that afternoon, but that Haywood took the matter up and opened communication with the union at Silver City and made arrangements to engage Attorney John Nugent to look after the interest of the federation and defend Orchard if necessary. The defense produced copies of this correspondence and all of it was read into the record. Continuing, Moyer said that Attorney Miller came to Denver about the first of the following month. Miller went to Denver at the suggestion of Simpkins, so the witness testified, and brought a request from Simpkins that the federation furnish the large amount of money that would be needed to defend Orchard. Moyer said that he and Haywood conferred with Attorneys Murphy and Miller, and subsequently gave Miller \$1,500.

Moyer denied that he had ever discussed any kind of criminal act with Orchard or anyone else, or that he had ever given him a cent for expenses on the trip Orchard made to Ouray, a bodyguard for him. He said that he had no personal feeling of hostility or Steunberger or John Neville.

Witness denied that he participated in the conference in Pettibone's back yard, where Orchard said he, Haywood and Pettibone had discussed various acts of violence; denied knowledge of the subsequent meeting at federation headquarters, where Orchard swore that the Steunberger and Neville executions were planned; denied practically every material statement in all of Orchard's testimony. Moyer explained that Orchard accompanied him to Ouray because Orchard was going to Silverton, and they made the journey together as a matter of convenience. Representatives of the United Mine Workers had been beaten up by thugs employed by the mine owners, and the witness said Orchard took along cut-off shotguns for their own protection. Moyer swore that his gun was not subsequently used to kill Lyte Gregory, but that Orchard returned it to the witness after they got back to Denver, and the weapon had never been discharged up to the time Moyer was arrested.

BEGINS TO CROSS EXAMINE.

Boise, July 11.—The cross examination of Chas. H. Moyer began in the Haywood trial this morning. The defense is jubilant over the effect of Moyer's day on the stand. Even the prosecution concedes that the witness favorably impressed the jury and court, but hope to secure admissions today that will shake his testimony.

WELLMAN'S START WILL BE DELAYED

Spitzbergen, July 11.—The balloon house of the Wellman-Chicago Record-Herald Arctic expedition was damaged by a storm July 4, and although the airship was uninjured, the accident probably will delay the departure of the expedition, the members of which, by hard work all night, managed to save the building from being wrecked. The Frithjof dragged her anchors half a mile during the storm and will be dispatched to Tromsø for repairs. All the members of Mr. Wellman's party are in good health. It is expected that the start for the pole will be made in the beginning of August.

Missing Official Blamed.

Dublin, July 11.—A rumor is current here to the effect that a portion of the state regalia, valued at \$250,000, which was stolen from Dublin castle recently and for the return of which the government has offered a reward of \$5,000, was removed by an important official of the Order of St. Patrick, who has disappeared.

SNORING IS NO CAUSE FOR A DIVORCE

New York, July 11.—Snoring is not a cause for divorce. The question has just been settled by Justice Jaycox of the New York Supreme court. When Justice Jaycox found that snoring constituted the cruel and inhuman treatment Mrs. Victoria Morton of Bellport, L. I., alleged against her husband he promptly dismissed the case. Mrs. Morton screamed when she heard the order given, and then rushed to the home of her aged husband's sons, demanding to see her "darling husband." She created such a disturbance that she was finally carted away.

WALTER ECKERSALL SAVES FRIEND FROM DROWNING

Colon, Mich., July 11.—Walter Eckersall, the University of Chicago's famous quarterback, is the hero of a "action colony" at Pawpaw lake, and George Hastings of Chicago, owes his life to the bravery and endurance of the young athlete. On the lake yesterday afternoon Hastings fell overboard with an attack of heart disease. Eckersall plunged in after his friend and swam with the unconscious man 20 rods to the shore.

AWFUL DEED OF DRUNKARD

Buffalo, July 11.—While sitting in front of his saloon today, Peter Forrester was stabbed to death by Geo. Hodson, who was intoxicated. Hodson then ran into a room occupied by Maria Smith and plunged a knife into her abdomen. She is dead. Jealousy was the cause of the stabbing.

STANDARD OIL HEADS ON THE GRILL.

CHICAGO, Ill., July 11.—Although John D. Rockefeller and his brother, William, returned to their homes other officers of the Standard Oil company are still in Chicago, and it is possible that further testimony will be introduced at the hearing before Judge Landis.

SUCCESSFUL

Is Declared to be the Visit of King Edward in Ireland—Queen Accompanies Him.

Dublin, July 11.—The first day of the visit to Ireland of King Edward and Queen Alexandra was a great success. The weather was fine and the city gave the sovereigns a royal reception. Both wore the national color of Ireland, the king a green necktie and the queen a moss-green suit and mauve toque. His majesty delivered brief speeches at the various functions, in which he expressed his grateful thanks for the warm reception accorded himself and the queen and congratulated the country on the progress and prosperity indicated in the exhibition. He said his stay must be briefer than he could have wished, but he intended to make the most of it, the prosperity of the country and the happiness and contentment of the people being objects very near to the hearts of both himself and the queen.

NARROW ESCAPE OF LABORERS OF WRECK TRAIN

Mitchell, S. D., July 11.—Forty laborers on a wrecking train had a narrow escape from death in a wreck on the Milwaukee road, three miles east of here. Three cars of the train were precipitated into the James river, but the coach containing workmen landed on top and not a man was seriously hurt, all crawling out of the front end of the coach, which stood nearly erect on top of the other cars.

BANKHEAD

To Fill the Unexpired Term of Senator Morgan.

Montgomery, Ala., July 11.—Former Congressman John H. Bankhead of Fayette county was nominated for United States senator to fill the unexpired term of Senator Morgan, by the Democratic caucus of the Alabama legislature. No other name was presented to the caucus. Senator Bankhead received 112 of the possible 138 votes in the caucus. Only one vote was cast against him, that of Representative Long of Butler, chairman of the house caucus, and recognized as a leader of the governor's forces in the legislature. Mr. Bankhead will be formally chosen senator next Tuesday, as the nomination is equivalent to an election.

Struck By Lightning.

Vincennes, Ind., July 11.—Two huge tanks of oil belonging to the Standard Oil company, in the Bridgeport oil fields, near here, were struck by lightning and set on fire, causing a loss of \$50,000. Efforts to extinguish the fire proved unavailing.

Telegraphers' Dispute.

San Francisco, July 11.—President S. J. Small of the commercial telegraphers' union has determined to remain in the city and go over the San Francisco situation with United States Commissioner of Labor Neill, who is expected to reach this city Friday. Mr. Small said: "My change of mind does not in any way interfere with our future moves in defense of the position we have taken."

ANARCHISTS AND SOCIALISTS WILL MEET IN LONDON

IT WILL BE THE MOST NOTORIOUS GATHERING OF CRIMINALS IN HISTORY.

PLOTS TO MURDER MANY

Will Be Formed and Noted Assassins Chosen President—Plans Against Czar.

London, July 11.—English soil is to offer a refuge for Russian Nihilists and Anarchists to plan for the assassination of Russian officials. A monster convention of the reds is to be held in London next month to plan for the resumption of the Russian reign of terror. It is doubtful if ever more murders have been planned at one meeting than will be determined on at this conference. It will be the most notorious gathering of criminals ever held under sanction of law. Elections are now being held by the reds throughout European Russia and Siberia, to choose the delegates. In addition to holding their convention here the reds plan to combine the headquarters of the Nihilists and Anarchists and transfer them from Geneva to London, laws recently passed by Switzerland having made it almost impossible for the reds to operate from there as they have in the past. The noted Nihilist assassin, Krasnoyarsk, who escaped recently from Siberia, will be appointed permanent chief of the new headquarters.

Russia has successfully appealed to Great Britain to prohibit the meeting. Scores of Russian detectives are being sent here to watch the convention. It is expected that all Russian authorities from the Czar down will be condemned once more to death. Plans will also be consummated for fresh uprisings throughout Russia.

NOT YET KNOWN HOW MANY KILLED IN THE COLLAPSE

Philadelphia, July 11.—Just how many persons died in yesterday's collapse of the Braden Brothers company's unfinished concrete building is not uncertain. There are but two bodies recovered so far. Three more men are known to be buried in the ruins and responsibility exists that still others perished. In the confusion following the collapse wild reports were given out. Thirty men are known to have been hurt, and of these two will die. Forty-three men went down in the crash.

CLOSE FRIEND

Of Miss Carter in Whose Apartments Embezzler Was Arrested Held as Witness.

New York, July 11.—Harry Kirkstein, a close friend of Mrs. Laura Carter, in whose apartments Chester B. Runyan, the teller of the Windsor Trust company, who embezzled \$98,000 of the company's funds, was arrested, was arraigned and held for a hearing Friday. It is said that Marie Duncan, Mrs. Carter's colored maid, has told the district attorney that on July 2 Mrs. Carter sent her to Kirkstein with a package which she believed contained money. The police department has sent an officer to Chicago to bring to New York Flora Wood, Mrs. Carter's sister, who, the police believe, may know something about the \$25,000 which is still missing out of the amount Runyan took from the bank.

ACTING MAYOR IS STAR WITNESS IN BRIBERY CASE

San Francisco, July 11.—The trial of Louis Glass, vice president of the Pacific States Telephone company, indicted for bribery of supervisors, began before Judge Lawler, Assistant District Attorney Henny making his opening statement and Supervisor Boxton giving his testimony. The specific charge on which Glass is being tried is the bribery of Supervisor Charles Boxton, who was elected temporary mayor of San Francisco. It is alleged in the indictment that on March 15, 1906, he paid Boxton \$5,000 to vote against an ordinance advertising for sale a competitive telephone franchise, which ordinance was subsequently passed and resulted in the securing of the franchise by the Home Telephone company of San Francisco. Boxton is to be the star witness for the defense.

Saved Union Army From Defeat.

Oconomowoc, Wis., July 11.—Gilbert Kenyon, who is said to have saved the Union army from defeat at the battle of Shiloh, was killed here by a train. Kenyon was a member of Company B, Sixteenth Wisconsin infantry, and at the time of the battle was acting as scout. In his endeavor to gather information he accidentally got within the Confederate lines. During the night he made his escape and returned and imparted the information of the closeness of General Johnston's forces, which act, it is said, saved the Union forces from defeat.

Few Withdraw Resignations.

Paris, July 11.—It was officially announced that up to date 43 out of the 300 mayors and municipalities of the south of France have withdrawn their resignations, tendered in sympathy with the winegrowers' movement.

ROASTED

In Gigantic Iron Cylinder Was a Mute, Following an Explosion of Paint.

Hagerstown, Md., July 11.—Charles Favorite, a deaf mute, while employ-

ed in painting the interior of an iron cylinder 20 feet long and 12 feet in diameter, was probably fatally burned.

The iron shell was so heated from the sun that a man could remain inside but a few minutes at a time. Favorite's working companion, Arch Knapp, lighted a candle to use during his suit and approached the manhole of the tank. There was a terrific explosion which threw Knapp 20 feet and burned his clothes from his body. The interior was a burning furnace, in which Favorite was being roasted to death when he was rescued. His face was terribly burned and his entire body was a mass of blisters. If he recovers his eyes are probably destroyed.

SEVERED HEAD BIT HIM.

Zanesville, July 11.—Will Christman picked up the head of a turtle Wednesday and one of his fingers was bitten off. The strange feature of it is that the turtle's head had been cut off two hours and the body was being prepared for the soup kettle.

CHANGE IN SAILING DAYS.

New York, July 11.—The Hamburg-American line will hereafter dispatch its fast steamships from New York for Hamburg on Saturdays instead of Thursdays. According to the amended schedule the freight steamships will sail from New York for Hamburg on Thursdays instead of Saturdays.

FORAKER TO ATTEND.

Sandusky, July 11.—John T. Mack received a letter from Senator Foraker Wednesday saying that the senator will be here August 1 to visit the Soldiers' home, to address the legislators and to spend several days at the Middle Bass club.

CHARGE COLLUSION WITH BOOK TRUST

Los Angeles, Cal., July 11.—The National Educational association concluded the important executive work of its sessions by electing Edwin G. Gooley, superintendent of the Chicago city schools, president of the association, together with other officers, and adopted by a unanimous vote the new charter and bylaws provided by act of congress. Miss Elizabeth Shirley, a teacher in the Los Angeles schools, made a spirited speech before the convention in opposition to the proposed charter. Miss Shirley's language was bitter in reference to some of the leaders of the association, whom she did not name, and whom she charged incidentally with collusion with the schoolbook trust. Miss Shirley, however, was completely outvoted in the convention.

Mandamus Against Dunne.

San Francisco, July 11.—The district court of appeals granted a writ of mandamus against Judge Dunne, commanding him immediately to fix a date for settlement and to settle the bills of exception in the Mayor Schmitz case, or to show cause why he has not done so. The writ is returnable on July 12.

DETECTIVES GUARD COMPANY'S FUNDS

New York, July 11.—Will another \$1,000 disappear from the Jenkins Trust company's Coney Island office today, just as it has been doing since the first mysterious disappearance about a fortnight ago? It will not disappear if a strong force of guards and unwinking vigilance by the company's employees can prevent it. The trouble is, neither guards nor vigilance seem to check the theft, if thefts they are. No one would question that the money was being stolen, but for the mysterious way in which it vanishes. So serious has the situation become that not a bill or a coin is left unguarded.

COMMISSIONERS

Denied That the Conditions on the Isthmus Are Unsatisfactory After Their Visit.

Panama, July 11.—It can be asserted that the rumors recently published declaring that the United States canal commission, are untrue. Lieutenant Colonel Goethals, chairman of the commission, authorized the newspaper correspondents to make this denial and added that the commissioners were working harmoniously and were entirely satisfied with conditions on the isthmus. I and my associates," the colonel said, "have the work well in hand." Continuing, the colonel declared in no uncertain terms that they were all here to stay until the completion of the canal.

Report that Japanese ambassador Aoki will return home is officially denied.

"FIGHTING BOB" AND JAP ADMIRAL DECLARED PEACE

ONE OF THE PROMINENT OFFICERS OF JAPANESE NAVY NOW IN AMERICA.

IT'S WORSE THAN FOOLISH

Is the Talk of War Between the Two Countries Says the Minister to Mexico.

New York, July 11.—The first day in New York of Admiral Baron Yamamoto, who is a guest of the city, was a busy one. The admiral, who is one of the most prominent naval officers of Japan, arrived here from England and will remain until July 15. He was interviewed at length by about half a hundred reporters, had his photograph taken a score of times, received visits from Major General Frederick D. Grant, Rear Admiral Robley D. Evans, Captain J. D. Adams, acting commandant of the New York navy yard, and a number of other military and naval men, took a long automobile ride and dined with the members of his party. The admiral strongly deprecated the war scare which has recently appeared in both Japan and America. He said that no small incident could break the friendship which has existed for so many years between Japan and the United States. He thought the sensational press of the two countries largely to blame for the war talk. As to the prospective transfer of the great Atlantic battleship squadron to the Pacific, that was a matter solely for the American government to decide, and one that did not interest him in the least, except in that it was a novel naval experiment.

Rear Admiral Evans, who is an old friend of Admiral Yamamoto, called on him, and the two sailors had a long chat together. After the visit Admiral Evans said they had settled the whole matter of war between America and Japan and had declared peace. "Admiral Yamamoto, he said, agreed with him that war talk was all nonsense. "It is absolutely silly to talk about war between the two countries," said Admiral Evans. "There isn't more reason why we should fight Japan than there is that we should fight Italy because of Italian outrages in this country, or that the Chinese should declare war on us because some household hurls a brick through a laundry window."

Worse Than Foolish.

Mexico City, July 11.—"Talk of a war between the United States and Japan is worse than foolish," declared Japanese Minister Minoza Arakawa, at the Japanese legation here. Mr. Arakawa declares that the situation has been exaggerated by the newspapers. He further says that the Japanese would be the last people in the world to go to war with the United States, the friendship between the two countries, cemented by 80 years of cordial relations and harmonious efforts along the same lines, bringing the two people too close together to ever permit war. The minister says that nothing like the San Francisco trouble could possibly promote a conflict between the two countries.

NEGRO IS ARRESTED FOR AN OLD CRIME

Knoxville, Tenn., July 11.—Joe Crockett, a negro, wanted in Bloomfield, Ind., for murder committed last year, was arrested by the local police. The murder occurred at the railway construction camp of C. B. Head. Crockett confessed his guilt to the local police. After the murder he was pursued by a mob, which threatened to lynch him if caught. He was taken into Alabama and then lost.

TREMENDOUS BONDS GIVEN BY RAILROADS

Richmond, Va., July 11.—Judge Prebend of the United States circuit court of appeals, in an opinion handed down Wednesday, continued the restraining order preventing the uniform 2-cent passenger rate, as adopted by the state corporation commission, from going into effect.

The case will now be fought out on its merits. The Southern railway was required to furnish bond of \$200,000 and the Norfolk and Western railway company furnished bonds of \$275,000. The bonds are for the protection of the public. The railroads in question are now issuing rebate coupons with all tickets sold at more than two cents per mile.

Beauty For Every Woman

Beauty is the essence of woman's power (well she knows it). It would not be too much to say that every woman would like to be beautiful—the least vain of her sex would not decline it. A lovely complexion is the essence of beauty. It attones for a multitude of Nature's faults, such as irregular features; and the use of the following face wash will give the plainest skin a delightful glow of health and the soft peach tint of a baby's skin:

Obtain at your drug store Rose Water, 2 ounces; Cologne Spirits, 1 ounce; Eppotone (skin food), 4 ounces. Put the Eppotone in a pint of hot water (not boiling) and after dissolved, strain and let cool. Then add the Rose water and Cologne Spirits.

The daily use of this wash will bring out the latent beauty that is in every skin and cultivate a delicate bloom to the complexion that is at once the envy and the despair of masqueraders. The liquid imparts a most soothing and cooling sensation to the face and quickly softens the tender cuticle that is roughened by exposure to the atmosphere. It is absolutely harmless.

Stop in at the drug store today and get these ingredients, and you will have no further need for face powders, rouges or cosmetics. There is enough in the above formula to last for months and the cost is small. It is best to make this preparation at home, then you are sure you have the right ingredients.

BOWSER PAINTS FENCE

Many Things Happen to Interfere With Plan to Beautify Home.

FINALLY GIVES UP THE JOB.

Old Fellow Blames His Wife For the Misfortunes That Befall Him on This Occasion and Acts Like One Whose Sufferings Are Many.

[Copyright, 1907, by G. D. Daniels.] When breakfast was finished the other morning Mr. Bowser did not shove back and rush upstairs and grab his hat and overcoat and hurry off with the declaration that he was fifteen minutes late and that his was the worst run house in America, according to his usual programme. On the contrary, he dallied around until Mrs. Bowser's curiosity got the better of her, and she asked if he thought it was Sunday.

"I am not going to the office this morning," he replied. "In fact, I am going to take the day off. I want to give the front fence a coat of paint and brighten things up a bit."

"I know of a painter who will be glad to do the work and do it well and cheap," she said.

"So do I, but he won't get a chance to swindle me. I don't propose to have

"DOES THIS HOUSE LOOK AS IF A WASH-ERWOMAN LIVED HERE?"

that fence painted with chalk and kerosene oil. I want the best material, and I want the exercise, and I shall do the painting with my own hands."

Started to Paint Fence.

When he had changed into an old suit he began to look around for brushes and paint. He found two or three brushes and two or three old cans, and after throwing out hints that Mrs. Bowser had thrown away \$10 worth of material to spite him he started off and bought a new supply. It was 10 o'clock before he was ready for work, and he had only put on a brushful of paint when three men came along and halted, and one of them brusquely demanded if he was the kind of man to take bread out of other men's mouths. In other words, did he propose to paint his own fence while members of the Painters' union were walking about in a state of starvation? The way the question was put to Mr. Bowser nettled him, and he answered that he would paint his own fence if twenty members of the union dropped dead of starvation. Thereupon one of the men called him names, a second knocked his hat off, and a third kicked over his pail of paint, and all ran away.

"If you will let me get a regular painter I will pay for it out of my own pin money," said Mrs. Bowser as she came out of the house.

"Never on the face of this earth!" shouted Mr. Bowser as he jumped up and down. "I am not a man that can be bulldozed. After what's happened I'd paint this fence if the painters shot me for it."

Would Call Her When Wanted.

"But don't you see?" "I see nothing. When I want you out here I'll call you. The fence is going to be painted, and I'm going to paint it."

Mrs. Bowser re-entered the house, and he mixed a new supply of paint. He had painted the gate when a woman came along looking at the numbers on the houses and halted to say: "I don't see \$1 along here. I was told that there was a woman there who went out washing."

"This is \$1!" shouted Mr. Bowser as he pointed over his shoulder at his own house. "Does this house look as if a washerwoman lived here?"

"But I thought from the looks of you"

"The looks of me! Can't a man put on an old suit of clothes and paint his own fence without being taken for some scrub? There you go—leaning right up against the fresh paint!"

"You are a—a bad man—a very bad man, and I'll never get all this paint off in the world, and"—And the woman fled up the street, and Mrs. Bowser came out of the house to say:

"Mr. Bowser, I wouldn't have had that happen for a hundred dollars. That's a lady that I met at the church club last week, and I was going to call on her tomorrow."

"But she took you for a washerwoman."

"That was simply a mistake."

"Then she ought to have kept off the fence. I've got to do all that work over again. Didn't I say that I would call you if I wanted you?"

The gate had been finished on the outside and Mr. Bowser was brushing at the inside when he heard a heavy

tramping and a wheezing, and he looked out between the pickets just as a fat man came along and halted to lean up against a shade tree and inquire: "Say, you, don't Dr. Gregg live on this block?" "Never heard of him."

"He is a one eyed man."

"Never heard of him."

"He cures asthma."

"Never heard of him."

Looking For a Doctor.

"And I've had it for ten years and want to be cured. I was told that he lived along here somewhere."

"And I've told you about a hundred times that I never heard of him!" shouted Mr. Bowser.

"Sir, if you knew what the asthma was," persisted the man as he lurched forward and caught the gate—"if you had suffered for one night as I have suffered for a thousand—if—"

"You old rhinoceros, but I'll have your life if you don't get away!" was thundered in his ear. And the man with the asthma lifted his painted hands to heaven and wobbled his painted knees and staggered away. Mrs. Bowser had seen it all from the front window, and she came out and said:

"Mr. Bowser, that was one of the deacons of my church, and I shall never dare attend service there again. Please let me get a painter to finish the fence."

"Not on your life! This is my job. If a church deacon with the asthma doesn't know any better than to grab hold of a painted gate let him try to rub off what he gets. By the seven spotted bulls, but can't a man take a day off and paint his own fence without all this fuss? What in thunder do they come along here for?"

Mrs. Bowser retired in as good order as possible, and for the next half hour Mr. Bowser was permitted to work in peace. Then a big dog came bounding up the street in an exuberant way, stopping now and then to chase his tail in a circle in the joy of living. The painter painted on and dreamed of no tragedy. When the dog smelled fresh paint he investigated. He wanted to know, you know, and he found out. The small reminded him of the embalmed beef of Spanish war days, and he turned his side to the fence and rubbed and rubbed and growled his pleasure. He did not see the fat, red faced and baldheaded man rise up on the other side. He did not see that fat and so forth man on the inside of the fence gather up a stone flower vase and poise it in the air. From a woman thirty feet away came a scream, but the vase descended, and the dog fled with howls of dismay.

"Sir, that is my dog!" exclaimed the woman as she drew nearer.

"Durn his hide, but I wish I had mashed him flat!" retorted Mr. Bowser.

"You are a cruel, bad man, sir. The dog was simply playing with your fence."

"And look at it! He has rubbed the paint off of three miles of pickets and left enough hair to stuff a mattress. A woman that will lug a thundering big dog around the street must expect to have him mashed."

Threatened to Report Him.

"I will report you to the police, sir. You have been guilty of cruelty to animals."

"And I'll have your dog shot for a nuisance!"

The woman passed on, and Mrs. Bowser came out with face as white as snow and queried:

"Mr. Bowser, do you know who that woman is?"

"No. We didn't have anybody to introduce us. I'd like to talk to her husband for about two minutes."

"It's the wife of the minister of my church."

"Well, has a minister's wife a right to lug an old dog as big as a house around the street?"

"She will never call on me again. She'll tell all the ladies to keep away. I can never step foot in the church again. Oh, Mr. Bowser, why did you do it? Why won't you stop now before murder is done!"

She went away with tears in her eyes, and Mr. Bowser took a moment to think. Then he threw his brush into the street and the paint pot after it and entered the house. In ten minutes he had changed his clothes and was out on the steps. Mrs. Bowser caught him there and asked:

"Are you going to the office?"

In reply he bestowed upon her a long, lingering look of reproach, a look of martyrdom, a look of one who had suffered long and had reached the limit, and then passed down the steps and out of the gate and was lost to sight up the street. The paint pot had come into his happy life and turned it to gall.

A Little Printer's Ink Makes Millions Think—Think—Think!

More truth than poetry. A Little Printer's Ink prints a little advertisement in a little "magazine" that circulates at a little price and goes into a million little homes, chiefly in the little cities and towns and country places.

The millions of people in these homes are caused by the Printer's Ink to think that they can get big bargains for their money by sending it away by mail, ordering the things advertised by the little pinch of Printer's Ink.

Sometimes when they receive the stuff they order by mail they have another Think coming. They think, "What fools we mortals be," and apply the Think to themselves. And sometimes some of them think something like this:

"Wonder why Mister Man, our local dealer in many things we need, doesn't advertise these things in our local paper? Maybe if he did we wouldn't be tempted to send to the big city for these same things. If we were sure we could buy them at home for about the same price and have a chance to see the goods before taking, we think we'd prefer to buy them at home."

Now, Mister Man, what do you think—think—think?

CONCLUSION: THERE'S PLENTY OF PRINTER'S INK IN THIS NEWSPAPER SHOP.

ROMANCE

HAS CULMINATED IN THE MARRIAGE OF FORMER COTTON KING'S DAUGHTER.

To a Well Known Actor Their First Meeting Being on the Stage. Wedding Elaborate.

Providence, R. I., July 11.—A romance strangely interwoven with the ups and downs of Wall street financiering, will be culminated here this evening when Miss Beth Sully, the daughter of Daniel E. Sully, the famous cotton planter, will be married to Douglas Fairbanks, an actor whose home formerly was in Colorado.

Sohn after Sully lost his millions in the cotton market he went with his daughter to see "The Pit." Fairbanks was playing the part of the man who wrecked the fortunes of the hero, whose case was in many ways a duplicate of that of Sully. It was the first time that Miss Sully saw her father's husband. Soon after she met him at a social gathering and their love affair quickly developed. Sully at first was enraged. Then he "hooked up" Fairbanks and found that he was of an excellent Denver family, that he had lost a small fortune in Wall street, after he was graduated from college and had gone on the stage to make a living. This aroused the sympathy of the de-throned cotton king and he agreed to the wedding on the condition that Fairbanks leave the stage

and become associated with him in the manufacture of soap.

Miss Sully went to see Wm. A. Brady, who held a five year contract on the actor and the manager gallantly tore up the document. The wedding this evening will be very elaborate. After his appearance in "The Pit" Fairbanks played important roles in "Frenzied Finance," "Tantana" and "The Man of the Hour."

FELL INTO CASKET WHEN SHE SWOONED

And Prominent Italian Noblewoman Was Found Dead Showing Signs of Fearful Struggle.

Florence, Italy, July 11.—Search for the Marchioness Magdalen Castellar, a beautiful member of the Italian nobility, ended today beside a grave. The marchioness was entombed alive with a corpse. The body was found today in a coffin with Signor Rossi, who died a few days ago.

Her face was convulsed with terror, limbs contorted with the frightful efforts she evidently made for liberty. The exact nature of the accident can never be known. It is conjectured she visited the cemetery to pray at the grave of her sweetheart, Count Franchi, and wandered by mistake into the vault in which Rossi's coffin lay, swooned when she saw the corpse and fell into the casket. As vandals presumably clamped the lid on the casket in the darkness soon after, without seeing that two forms lay inside.

An unknown woman is reported to have left the Italian coast of the United States with a cargo of arms for Chinese revolutionists.

JAMES ALLEN.

Brigadier General James Allen, the new head of the United States Signal Corps, is a native of Indiana. He was commissioned as a cadet to the Military Academy at West Point on July 1, 1883, from his native state, and took the four year course, which then extended with high honors. General Allen did not enter the Signal Corps until December 18, 1890, and had a splendid record in the service. It was not until last year that General Allen took his post as chief of the Signal Corps, and he has since then been in the Signal Corps, and he has since then been in the Signal Corps, and he has since then been in the Signal Corps.

Railroads Reduce Force.

The C. & O., New York Central system, Pennsylvania lines and B. & O. railroads have arranged to reduce their traveling force of passenger and freight agents about 20 per cent. This reduction is made necessary by the recent ruling of the Interstate Commerce Commission, which makes all rates public, and precludes any chance of shippers being favored by cuts or rebates. Thus business is forced into its natural channels, and it is no use now to try to get business by the old methods.

Girl Said to Have Confessed.

Worcester, Mass., July 11.—Miss Mary Brennan, the police say, was responsible for the death of Charles L. Burnap, whose body, shot through the heart, was found on the shore of Lake Quabbin, near here. Burnap, who was a waiter at the Hotel Eldorado, was last seen with the waitress at the Lily Pond house, across the lake. Miss Brennan is said to have confessed that she and Burnap had been quarreling when, to frighten him, she pulled a revolver. While she was holding it, it accidentally exploded. Burnap fell and she fled.

Some of the Jingo organs ought to
open recruiting stations for the war
with Japan. The Jingoos are just dy-
ing for a fight.

It is pleasing to have the official
sympathies of Russia in our little
trouble, with Japan; but what is more
pleasing is the fact that we have no
need of them.

It is a pleasing consideration that
the Pacific ocean is so vast that all
the navies of the world can ride upon
its waters without the least danger of
coming in range of each other.

Nine years ago Democrats protest-
ed that the acquisition of the Philip-
pines and Hawaii would make us
more vulnerable on the Pacific. The
imperialists pretended that it would
strengthen us. Does any one doubt
now that the Democrats were right?
The Atlantic coast must be stripped
of battleships to protect our Pacific
islands.

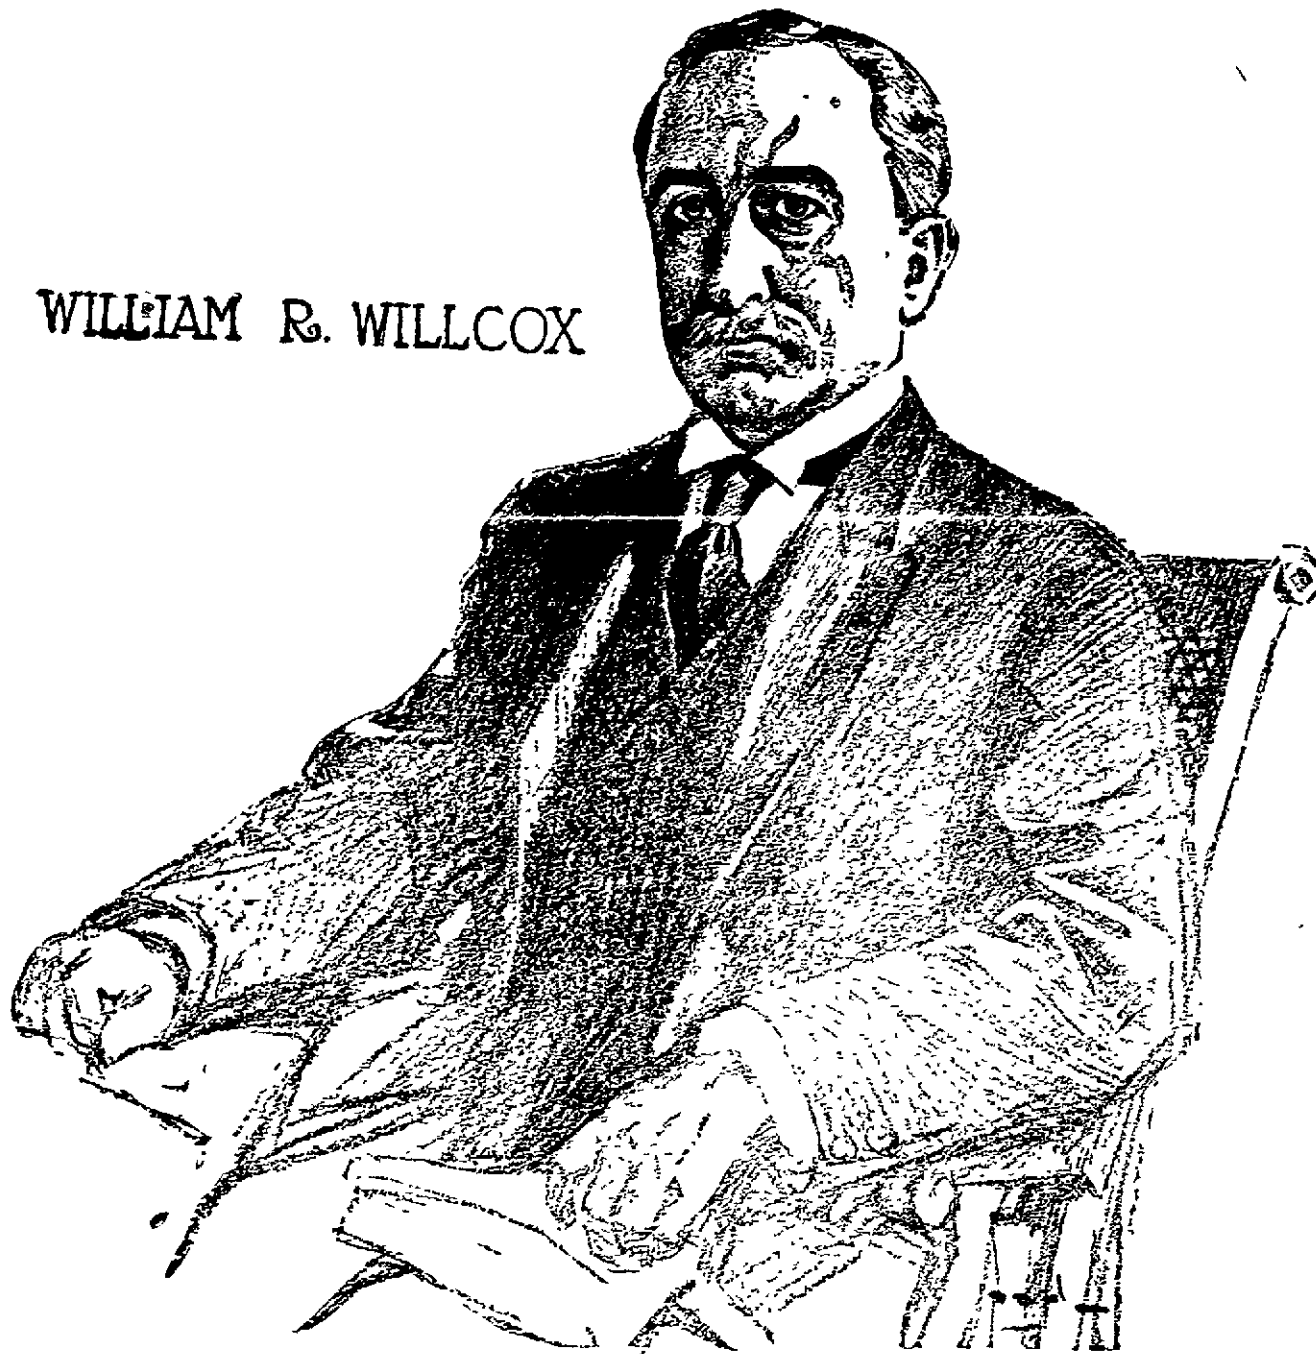

It will take about two months for
the fleet of battleships and cruisers
to get ready for the promenade
around the Horn, and about two
months more to reach San Francisco.
How long it will take to get back is
another question.

The Moros in the Philippines are
nearly all killed off in the work of
benevolent assimilation, and Gen-
eral Wood is now getting ready at
Olongapo to protect the army and
fleet of the United States against an
imaginary enemy.

Probably Japan and the rest of
the world know that a battleship
squadron could be sent around South
America. There is no war going on,
and there would be no trouble in
getting into any ports. It would not
astonish or paralyze Japan if sixteen
of our vessels did in peace what the
Oregon did in war nine years ago.
On the other hand, we know already
that it would take a good deal of
time to get the fleet fitted out and on
its destination. The proposed—or
the threatened—trip would not con-
vey any important information not
now in the possession of ourselves
and of the rest of the world. There
is grave danger that Mr. Theodore
Roosevelt's passion for the spectacu-
lar is running away with him. Three

WILLCOX NAMED FOR IMPORTANT POST.

WILLIAM R. WILLCOX

New York, July 11.—Exactly twenty
years ago William R. Willcox, then 24
years old and a struggling schoolmas-
ter, said good-bye to his lifelong
friends in the little village of Smyrna,
and set out to make a name for him-
self in the metropolis.

Nineteen years ago it was enough for him that
the Atlantic fleet should be paraded
in front of his summer residence at
Oyster Bay; but he has outgrown
that, and nothing short of the cir-
cumnavigation of South America will
sufficiently exert him.

the funeral services of Mrs. Henrietta
Coldwell, at the family home on East
Main street on Friday.

Miss Naomi Smith of Fredonia is

grandparents, Mr. and Mrs. George
Handley.
Miss Edith Griffith is visiting her
cousin, Mrs. E. M. Larson at her
home in Newark.

There was a difference of opinion as
to his future. Some of the family
friends thought the great city of New
York a little too big for a young man
from Smyrna; others merely said, "You
watch him."

Mr. Willcox was named last week as
Chairman of the Public Service Com-

mission, one of the most important
legislative bodies ever created—a body
which has on its hands one of the
biggest jobs ever undertaken in any
city or state.

And he has the added distinction of
having been selected for the job by
Governor Hughes.

A BAD RUNAWAY

Miss Fannie Morrison was driving
north on South Fifth street and as
she neared the railroad the watchman
at that crossing waived for her to
stay back, that here was a train com-
ing. She stopped and as the train
passed, her horse reared and turned,
throwing Miss Morrison out of the
buggy on her head and bruising her
up considerably. She was taken into
the home of Mrs. J. C. McCurdy to
await friends who took her home.

The horse ran through Mrs. McCur-
dy's yard to the back of the house,
turned and came out again, tearing
up all the flower beds and then went
down Fifth street and was caught.
The buggy was broken up and pieces
scattered all along the street. Miss
Morrison lives about nine miles from
Newark, near Brownsville.

BECOMING
A MOTHER

Is an ordeal which all
women approach with
indescribable fear, for
nothing compares with
the pain and horror of
child-birth. The thought
of the suffering and danger in store for her, robs the expectant mother
of all pleasant anticipations of the coming event, and casts over her a
shadow of gloom which cannot be shaken off. Thousands of women
have found that the use of Mother's Friend during pregnancy robs
confinement of all pain and danger, and insures safety to life of mother
and child. This scientific liniment is a god-send to all women at the
time of their most critical trial. Not only does Mother's Friend
carry women safely through the perils of child-birth, but its use
gently prepares the system for the coming event, prevents "morning
sickness," and other dis-
comforts of this period.

DAY'S BUSINESS IN COURT HOUSE

The hearing of the case of Webb, receiver, vs. Mary J. Lingafelter, which was referred by the Common Pleas court of Muskingum county to Andrew J. Mitchell, special master, to take the testimony will be commenced on Tuesday of next week, and the parties are now engaged in making their preparations accordingly. The suit is to recover on behalf of the Building Association the money which it is claimed was lost through the joint manipulations of Robert C. Lingafelter and Mary J. Lingafelter. The amount claimed is about \$16,000 and interest. It is likely that the hearing will occupy about one week. Kibler & Montgomery represent Webb, and Smythe & Smythe represent Mary J. Lingafelter.

Petition in Error.

George P. Webb, as receiver of the Homestead Building and Savings Co., has filed a petition in error in the Supreme court against A. A. Stasel, receiver of the Newark Savings Bank Co., to reverse the Circuit court of Licking county in sustaining the motion to dismiss Webb's appeal from the judgment of the Common Pleas court in that case. The original suit was for some \$22,000, brought by the building association against the bank to recover the amount that the building association had on deposit in the bank at the time of the failure. The Common Pleas court allowed Webb to recover only about \$8000, but the Circuit court on error proceedings, allowed Webb the full amount, \$22,000.

Bill of Exceptions.

The case of Kate G. Steward vs. C. L. McCracken, administrator of the estate of Anna Haynes, will be taken to the Circuit court. Court Stenographer C. C. Cooper is engaged in preparing a bill of exceptions containing all the evidence. A large

number of witnesses were examined in the court below and the testimony taken and introduced in the bill of exceptions is quite voluminous. The suit was brought for service rendered Mrs. Haynes during the latter part of her life, in caring for, nursing, etc. She claimed, on trial, that a special contract had been made with her for so much per week. The dispute at the trial was over the amount to which she was entitled. The jury returned a verdict in her favor, and as to whether she is entitled to the amount, \$242, Mr. McCracken, the administrator, takes the case to the Circuit court, asking it to pass on the merits of the controversy.

Real Estate Transfers.

Forbids Orangemen to Meet.

Ottawa, Ont., July 11.—Mayor Kelly of Buckingham, Quebec, fearing a riot on July 12, has issued a proclamation forbidding the Orangemen to meet. The mayor is also swearing in special constables for that day. Mayor Kelly has taken this course after consulting legal authorities on the subject. Counsel instructed him that all he required were affidavits that the meeting would cause a riot, then he had the power to disperse it or to prevent the meeting. The mayor is satisfied that if the Orangemen meet the town will be a scene of strife.

A SPECIAL JURY INDICTS BANKER

E. C. FOX OF MIDDLEPORT, SAID
TO HAVE ATTEMPTED TO
BRIBE PROSECUTOR.

Judge Warnock a Receptive Candidate for Congressional Nomination—Ohio News.

Pomeroy, O., July 11.—A special grand jury returned an indictment against banker E. C. Fox of Middleport, charging him with attempting to bribe Prosecuting Attorney Albert P. Miller. Fox was immediately arrested and brought into court, when he was placed under bond. The indictment grows out of the wrecking of the Middleport bank last September, at which time \$115,000 in deposits disappeared. Fox was indicted at the time, but has not been brought to trial. Miller says that in March Fox approached him with a proposition to nolle the indictment against him in consideration of \$2,000 to be paid to Miller. Miller had two witnesses secreted behind curtains to hear Fox's proposition.

Speakers at Legislative Reunion. Columbus, O., July 11.—The list of speakers in connection with the forthcoming legislative banquet to be held at Cedar Point, Aug. 2, was announced by Clerk Morrison of the house of representatives. The banquet will be held at 8 o'clock in the evening, and a special invitation is extended to ladies to attend. Senator Samuel H. West of Bellefontaine is to be the toastmaster and the speakers will be: Governor Andrew L. Harris, Senator Edward A. Hafner of Cincinnati, speaker pro tem of the house, and D. J. O'Rourke of Toledo. Their subjects will be announced later.

Warnock Would Accept. Bellefontaine, O., July 11.—Interest was added to the congressional situation in the Eighth district when the news came that Judge William R. Warnock of Urbana, state pension agent and former congressman, is again a receptive candidate. Congressman Ralph D. Cole of Findlay has announced that he intends to try to break the two-term rule and has accepted an invitation to speak at the Logan county Chautauqua as a starter to his next campaign.

Ohio Pharmaceutical Association. Sandusky, O., July 11.—Dairy and Food Commissioner Dunlap, the author of the Beal local option law and other men prominent in the state made addresses before the Ohio Pharmaceutical association, which opened its session at Cedar Point. Refuse to Return to Work. Lorain, O., July 11.—About 330 machinists at the local yards of the American Shipbuilding company refused to return to work. The trouble here is the same as in Cleveland. The former strikers object to working beside former strikebreakers. The company has made the announcement that it will not deal with the strikers except as individuals.

TABULATED BIDS WERE RECEIVED

Columbus, July 11.—Directors of the public service yesterday received a tabulation of bids for the laying of the 20-inch sewerage force main for the improved sewerage and sewage disposal plant, one of which almost took their breath away. It was an offer to do the work for \$128,869, which, compared with the appropriation of \$100,000 for the work, naturally caused the directors to wonder what they were up against. They all became "trust busters" for the moment, until it was discovered that the bid had been made so large by a clerical mistake. The bid was that of the New York Construction company. When the proposal was filled out a series of clerical errors was made in placing the figures on material and labor. The total bid, as entered in the footings of the proposal by the company, was

\$39,915.50, the lowest offered, but the tabulation of Engineer John H. Gregory, made exactly in accordance with the way the figures were filed in, made the immense total mentioned. W. C. Holliday was the next lowest bidder and lowest, with an offer of \$39,924. Sidney T. Keith made a bid of \$53,735, and Babbs Bros. & Graham \$54,885.

DREAMED HE SAW ANOTHER WORLD

Then the Boy Lay Down and Died—His Strange Forecast of Death Came True.

Warsaw, Ind., July 11.—After telling his parents that he had had a awful dream to the effect that he had died and had been carried away to some new world, Walter Dirck, aged 11 years, the son of Leonard Dirck, a railroad employe of Burkett, this town, went to a couch, lay down and died.

While attending the funeral of a friend at Palestine cemetery last week the boy turned to his parents and remarked that he would be the next person to be placed in a casket and lowered into a grave in the same cemetery. His hearers were amazed. On returning to his home he sought out his friends and asked forgiveness for any wrongs he might have done them. After accomplishing his mission he returned home, retired for the night, and in a vision had a premonition of his death.

Several years ago the boy was struck by lightning and since then he had been subject to spasms, which it is believed, caused his death.

SCHUMANN-HEINK SINGS AT COLUMBUS

Columbus, July 11.—In order to assist in raising funds for the celebration of the sixtieth anniversary jubilee of the Columbus Maennerchor, to be observed in October, 1908, arrangements have been completed by the society for a concert to be given in Memorial hall the 25th of next October by Madam Schumann-Heink.

The celebrated singer has also been invited to be the guest of honor at the banquet to be given by the Maennerchor the evening of October 21, the fifty-ninth anniversary of the founding of the society.

The committee which is preparing for the big jubilee celebration has decided, instead of soliciting subscriptions from those interested in the affair, to raise the funds needed by giving a series of entertainments during the coming winter.

One or two German plays and several other first-class musical affairs are being arranged for at the present time in addition to the concert by Madam Schumann-Heink.

The largest caravan of pilgrims for Mecca starts from Constantinople, and generally comprises about 10,000 persons.

Sharon, Pa., July 11—Newark developed an irresistible batting streak yesterday and although they garnered 18 good solid welts for a total of 27 bases, got only 6 runners across the plate. Three of the visitors were nipped at the plate.

Stecher was pie for the batters from Newark. They landed on his delivery hard and often, while Laddy Linke was cool and stingy with his hits. Sharon barely escaped a row of goose eggs. In the sixth Green led off with a two bagger to left and Kerr duplicated the hit, scoring the former. This was the only chance Sharon had, not another man getting around as far as third. Pearce and Snyder led with the stick for the visitors, the former having four hits, including a double, triple and two singles, while Pearce had a single, double and a home run. Kerr and Green did the best batting for the locals. The visitors played aggressively, while the locals seemed dopy. The score:

PITCHER STOUP HAS CLOSE CALL IN CAR ACCIDENT

PITCHER JOE STOUP.

Who narrowly escaped serious injury in a street car accident at Sharon yesterday.

had a narrow escape from serious injury. It not death, in a collision with a trolley car on the State street bridge Wednesday. Luckily both men escaped uninjured.

While driving east over the bridge their way out was blocked by a large ice wagon, standing just east of the approach, and a country woman who endeavored to cross on the left hand side of the structure. The two men were in a light runabout, and in order to escape a collision with the woman, Boyle drove onto the track directly in front of a street car. The car was going at a slow pace and Mr. Boyle asked that the motorman stop his car. But the man at the motor did not heed the warning. Instead he crashed into the conveyance demolishing it and breaking the harness.

GLIDDEN TOURISTS MAKE AVERAGE OF 20 MILES PER HOUR

Toledo, O., July 11—Three hundred men in fantastic auto garb arrived here Wednesday evening from Cleveland on the tour for the Glidden trophy of 1907. The members of the party passed the night here, leaving early today for Chicago. Eighty-one cars started, an average of 20 miles per hour being made in the trip from Cleveland. The tourists will cover about 1,600 miles on the trip. Chicago, Indianapolis, Columbus, Pittsburgh, Philadelphia and New York will be visited in the order named. No racing will be allowed on the trip, the pace being limited to not more than 20 miles per hour.

FIRST ACCIDENT OF GLIDDEN TOUR

Toledo, July 11—The first accident of the Glidden auto tour occurred early today, when a car driven by E. R. Otis of Cleveland, turned turtle in attempting to pass another car west of Toledo. Otis, Mrs. Otis and Miss Rollins, all of Cleveland, received painful injuries, but none will die. The injured were brought back to Toledo.

He generally gets a fine and sentence.
"No officer on this force can arrest me and I have \$1,000 to back that declaration," said Bert Claggett last night, and before the money could be covered, Officer Abbott had the man in custody and he was soon en route to the city prison. He was charged with disorderly conduct and numerous offenses. He got \$5 and costs and a county jail sentence.

BUNNY PEARCE BOOSTS AVERAGE BY HARD HITTING

NEWARK'S CRACK CATCHER BATTING .379 AND CATCHES WELL TOO.

His Sale or Draft is Sure to Come and Newark is Bound to Lose Him Next Season.

Catcher Bunny Pearce is a hitter for fair. This isn't news. It's merely a statement. Everyone knows that Pearce is a hitter. Since getting back in the game after being injured

BUNNY PEARCE.

His batting was a feature of Wednesday's game—is hitting .379 now.

at Wehrle park, Pearce has boosted his hitting to .379. This is marvelous. He is hitting at a clip usually taken by outfielders. Not another catcher in the league is anywhere with him.

Not only is his hitting of the very best, but he continues to be the best catcher in the league, without a doubt. Veteran George Fox isn't in it with Pearce.

Old George has a great head, but at that he has nothing on Bunny. And Pearce is so much faster that it draws a smile when the two are compared.

Pearce is better right now than any catcher ever was in the O. P. league, not excepting Bert Blue and Lee Fohl.

The greatest regret for the Newark fans is that there is no way possible in which Pearce can be saved for the team next season. If he is not sold he will be drafted without a doubt. So in either event, he will be lost to the Newark team.

WHEN THE BOBBER BOBS.

It's agin' all laws o' fishin' an' fernest th' book o' rules;
Scientific anglers scorn it as the instrument o' fools!
But, durn me, I jist like it, spite o' that, there city snob—
For there's nothin' like a bobber,
An' I love a bob!

When th' sun is risin' yell'er an' th' birds is wakin' up,
Fillin' all th' world with singin', fillin' full joy's brimmin' cup—
Then I sort er git excited with my hick'ry pole an' cob
An' I tickle in my denims
When I see the bob!

Ain't no use fer fancy tackle, bristol rod, 'er whirr'in' reel
Gittin' tangled like o' whiskey makes a feller's brain cello feel—
But, gee whillikens, I'm happy with th' risin' o' the sun
When th' bobber bobs with th' risin' o' the sun
And the string—
in' be—
is

First she trembles on th' water an' th' circles broaden wide,
Ripplin' inter baby billers, spurtin' onward with th' tide;
Then she jumps like all creation, does that jiggin', testin' cob,
Gittin' me all flushed an' flutt'in'
Count o' that there bin' bob!

An' when night comes I turn homeward, loaded down with string o' fish,
S'prisin' all them city fellers—causin' them t' wish and wish
They had thrum away ther riggin', reel an' all—an' smoked a cob,
Fishin' like a "native" fishes
With a stick pole an' a bob!

GRANVILLE NEWS

Granville, July 11.—Many Granville people will be interested in learning that the Rev. Leroy E. Viets for the past four years pastor of the Baptist church of Watertown, South Dakota, has tendered his resignation and will go to Minneapolis, Minn., where he has accepted a call to the Tabernacle Baptist church. Mr. Viets was born in Williams county, Ohio, July 25, 1871, and was educated in the public schools of Bryan, Ohio, and in Denison university, Granville, from which institution he graduated in 1897, after which he took a theological course in the divinity school of University of Chicago. He worked his way through college and theological seminary as a typewriter, and was a member of the Typographical Union in Chicago. When he finished his school days he entered his first pastorate at St. James, Minn., in October, 1900. He was married in July, 1900, to Miss Addie L. Clemons at Granville.

At a delightful breakfast party held at the home of Mrs. C. M. Roberts Tuesday morning, formal announcement was made of the engagement of Miss Martha Kenner Roberts to Dr. Russell E. Adkins, who is under appointment to the medical missionary service of the American Baptist Missionary Union, and will sail with his bride for the field of his labor about the middle of August. Dr. Adams was to have taken charge of the missionary hospital at Kitauang, west of Swatow, but upon receiving news of the death by accident of Dr. Worley at Swatow, the authorities of the Missionary Union notified him by telegraph to be ready to proceed to the latter place as soon as possible and take up the work of Dr. Worley at head of the hospital there.

The oats in some sections are looking as though a hot wave had scorched the blades, as they are getting very red. The blades are withering and the fields present a sickly appearance. A little green louse which sucks the sap out of the leaf will be found on close inspection.

WOMAN TO PLEAD
"UNWRITTEN LAW"

MOTHER WHO KILLED DAUGHTER'S BETRAYER SURE JURY WILL ACQUIT.

Says She Demanded That Man Repair His Wrong and He Refused, Laughing at Her.

La Plata, Md., July 11.—Charged with the murder of Herbert Posey, Mrs. Mollie Bowie and her son, Henry, were placed on trial and their defense will be made upon the "unwritten law" just as was that of the Strothers brothers at Culpeper, Va., a few months ago, and that of Judge Loving of Lovingsburg, Va. In each of these cases the jury held that a man was justified in murder to avenge the honor of a daughter or sister. Mrs. Bowie is confident that a Maryland jury will hold that a woman also is justified in murder to avenge a daughter's wrong.

Mrs. Bowie's daughter, Priscilla, and Herbert Posey, were engaged to be married last Thanksgiving day, but the girl was jilted on her wedding day. With her relatives and friends she waited for hours for her recreant lover, but he did not appear.

Mrs. Bowie went to Posey a few days later to ask what was his reason for jilting her daughter. The defense expects to have testimony to show that the only explanation offered by Posey was that he did not care to marry.

When the mother broke this news to her daughter, the girl broke down and confided in her mother than she had been betrayed by Posey and that she was soon to become a mother.

Hoping that the man would ultimately fulfill his promise to her daughter, the mother and brothers desisted for a time and took no decisive steps. Finally, believing that words would be of no avail, the mother and brothers armed themselves and laid in wait for Posey as he returned from his work at Indian Head.

Mrs. Bowie says she laughed at her entreaties that he marry her daughter. Both Mrs. Bowie and her son then opened fire and riddled him with bullets.

The case will be tried before the full bench of the district, Chief Judge Briscoe presiding.

Former State Senator Adrian Posey and Congressman Sidney E. Mudd will represent the accused. Congressman Mudd says the plea for the defense will be justification. Both lawyers are confident of a verdict of acquittal and it is expected the trial will only occupy three days.

General Wilmer, of the Prosecution in discussing the case said he thought the defense would be the unwritten law.

**MOTHER TESTIFIES
IN OWN BEHALF
IN MURDER TRIAL**

La Plata, Md., July 11.—Calm and stoical as a Spartan mother, Mrs. Mollie Bowie took the stand today in defense of herself and her son Henry Bowie, jointly charged with the killing of Herbert Posey, betrayer of Miss Priscilla Bowie, daughter and sister of the defendants. The defendants stand on the plain plea of justification under the "unwritten law." They admit the killing and justify it by the inalienable right to protect the sanctity of the home. The almost unanimous opinion is that Mrs. Bowie will go free.

When Mrs. Bowie was called to the stand she showed signs of deep emotion.

"How did Robert Posey die?" asked counsel.

"I killed him," replied the witness. Her breast heaved as she repeated "I killed him," and she put the emphasis on the "I." Henry Bowie, the son who fired at Posey, jumped from his seat as if to expostulate. His lawyer seized him and forced him back.

"I killed him at Indian Head," continued the mother. "He had continuously made love to my daughter and had begged her to become his wife. Then he deceived her. She trusted him and believed in him. He betrayed her."

"He admitted what he had done. I told him all we asked was that he should marry her. My son told him that we would allow him to get a divorce. We pleaded with him to marry her and live with her just long enough to save her honor. He said he would not and then I shot him. That's all."

Priscilla Bowie broke down, and when called to the witness stand today became so hysterical that temporary adjournment was taken.

RHEUMATIC FOLKS!

Are You Sure Your Kidneys Are Well?

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. It's presence there shows the kidneys are inactive. Don't dally with "uric acid solvents." You might go on till doomsday with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. Here is a Newark testimony to prove it.

Charles Rose, of 549 West Main street, Newark, Ohio, says: "Rheumatism attacked me in the back and joints and I felt touches of it all over my body. I do not think there was a joint that did not pain. My work requires me to stand in water almost constantly, and I think wet feet was the first cause of my trouble. After suffering for months and months without being able to get anything to help me, I heard of Doan's Kidney Pills and got a box at Crayton's drug store. The day I began using them I was aching all over. My case was so severe that I used three pills three times a day, and in 48 hours from the time I took the first dose the pain had almost entirely disappeared. I continued the treatment for some little time, and have had no return of my trouble since. I have been working in the wet for the past twelve months without suffering at all from my kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

**BEAUTIFUL WOMAN
FLEECES JEWELERS**

New York, July 11.—Representing herself as the wife of United States Senator Benjamin R. Tillman of South Carolina, Mrs. Isabelle Loomis of No. 2 West One Hundred and Eighth street, a woman of striking beauty, wearing jewels of value and handsomely gowned, was arrested late Wednesday by Lieut. Andrew Nugent of the central office as she was leaving a Madison Lane jewelry store. She is charged with ordering jewelry and goods of high value in Maiden Lane stores, having them sent to hotels and then disappearing with the articles forwarded her.

When arrested Mrs. Loomis became deeply agitated, but rapidly regained her composure and proceeded quietly with Nugent to the Tombs police court. She was there arraigned before Magistrate Kernochan and held on a short affidavit as a suspicious person. While in court Mrs. Loomis declined to make any statement and failed to engage counsel. Her evident refinement and stylish clothing attracted unusual attention.

MANY DEFECTS

TO BE CORRECTED IN THE RANKS OF THE LEGAL PROFESSION

But Critics Often Pass Judgment Without Having Facts, Says Judge Nagel.

Hotel Victory, Put-in-Bay, O., July 11.—A large audience greeted the speaker of the day, Judge Charles Nagel, of St. Louis, who was introduced by President Hale, at the meeting of the Ohio Bar Association yesterday.

Mr. Nagel, who is a leading lawyer of that city, addressed the association in the quiet, conversational style. His was warmly applauded many times.

Judge Nagel's Address.

Judge Nagel said in part: "At the last meeting of the American Bar Association one of the papers was devoted to the 'Causes of Popular Dissatisfaction with the Administration of Justice.' While the profession will probably not regard that paper's indictment as altogether well founded, there can be no question that the public in the absence of a defense accepts it as a confession from one of our own number. In the American Law Review of October, 1906, Judge Anshun points out in eloquent and vigorous language that both nisi prius and Appellate courts adhere to an antiquated regard for the letter of the law, and thereby entail needless expense for the litigant, and really jeopardize the cause of justice. That contribution, no doubt, reflects the judgment of a large proportion of both laymen and lawyers. These are not solitary instances. Again and again in law magazines, in public prints and even upon the stump, we find consideration of the same subject, usually with the same general trend—to condemn. The lawyer need hardly be told that an abundance of smoke is accepted by intelligent persons as a safe indication of some fire.

"In one sense this disposition to complain of our profession is, of course, not new. A fair degree of discontent is but another improvement. Other professions, notably that of medicine, suffer the same fate. Together we are in the minority, and apart from the merits of the case we must regard it as one of our functions in a free country to provide suitable and safe targets for the practice of the majority.

"But we are not bound to admit that the dissatisfaction with the administration of justice which now confronts us marks a new era in both the comprehensiveness and intensity of that dissatisfaction.

"That the first criticism is directed at the Court is perhaps inevitable. It is the final tribunal which in the first instance must stand sponsor for the rest of the administration of justice. Those who delight in ready answers may urge that the administration of justice is but a consistent part of the entire political system, and that criticism of the courts is shared by every branch of our institutions.

"It is fortunate for us that legislation has not quite kept pace with agitation. But in the meantime impatient criticism demands of the courts what might have been, and not what is, found in the statute books. Again it is unfair for Legislatures, in supine submission to factional demand, to enact laws that are clearly incapable of enforcement. The court is powerless to do more than adjudge the law as it stands.

"Where the old-time boss has retained absolute mastery the courts, however constituted, are apt to adhere to conservatism to the point of self destruction. Where the modern gallery player has gained complete sway, the courts are liable to announce radicalism to the point of confiscation. In a word, the presumption of the assumption of political organization has been such that, in a measure, even the judicial tribunals have been dragged into the maelstrom.

"But the fact remains, that the great body of judges stand as far above the accepted standards of common intercourse as is possible, without forfeiting that public support which in our form of government, is essential to effective work. For, after all, in that great field of law, in which the decision lies at some point between a liberal and a contracted interpretation, and where discretion may be exercised, the judge, to be effective, cannot do much more than announce the highest acceptable standard.

"So much, I submit, the great body of judges have courageously and intelligently done. But they have been made to share the penalties for the offenses of the law. When excitement comes, however, it becomes indiscriminate. By one view held public attention. Praise and blame are dispensed to meet them. We have neither time nor patience for the sober mind who are either permitted to go without attention or, worse still, are assumed upon insufficient reasons to one class or another, to share its general fate."

Freeland, Pa., July 11.—White damp is believed to have caused the deaths of seven miners in Audenried mine of the Lehigh-Wilkesbarre Coal company today. One body has been recovered and the searchers are looking for the others. Victims are Jas. Leo, foreman, and six Italians. The men are sent into the mine every morning to measure the water. When two men failed to appear, two others were sent in. Then Leo and his party followed. It was discovered that the mine was full of gas. Several members of the party made their way out of the mine. WARFARE

BETWEEN MEAT PACKERS AND STOCK RAISERS IS VERY IMMINENT.

Each Want the Other to Stand For the Inspection of Meat by the Government.

Washington, July 11.—Warfare between the big packers and western cattle interests is likely to result in the removal of the meat inspection and the ventilation of the entire matter in Washington. The fight has been raging for five weeks and a climax has been reached. The issue is whether the packers shall pay for beef and pork on the hoof or after slaughter, and inspection and approval by the government. Considerable meat has been condemned after post-mortem examination, and each interest wishes the other to bear this loss. In an effort to resist the packers' demand, the stock raisers' organization has instructed its members to hold cattle as far as possible on the ranges. This has been done, and the beef supply has been enormously lessened and the prices increased. It is not likely that a settlement will be reached until action is taken by the government.

GAME WARDEN WAS BOUND OVER

Frank Molinski, one of the Deputy Game Wardens at Buckeye Lake, who was arrested on an affidavit sworn to by Wayne Fickle of Buckeye Lake, in Justice Nash's court, charging him with shooting at him with intent to kill, was brought before the justice and waived examination. He was bound over to the grand jury in the sum of \$200, and furnished the necessary bond. The arrest of Molinski is the outgrowth of the trouble that has existed at the lake for some time between the wardens and the fishermen. Fickle had been arrested several times at the instance of Molinski on the charge of illegal fishing, but in each instance when the case was brought to trial the jury returned a verdict of not guilty.
